

Digitising European Industry

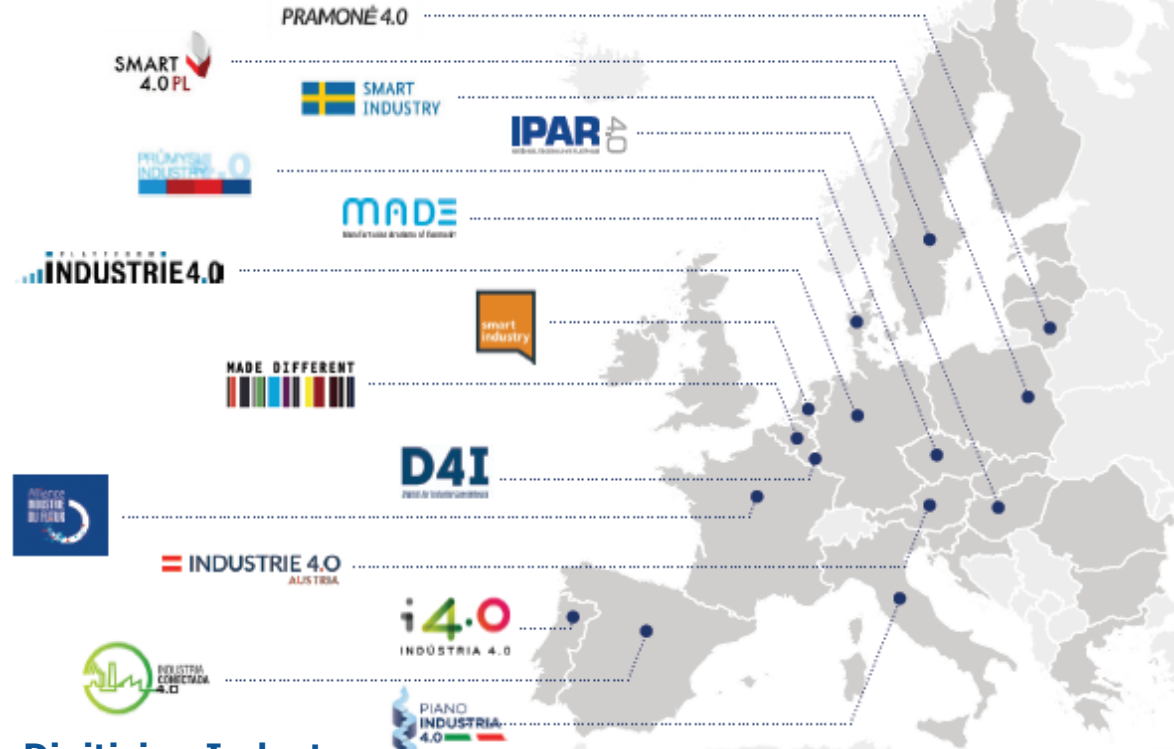

Yves Paindaveine, Head of Sector
Digitising Industry, European Commission
Yves.Paindaveine@ec.europa.eu

Digitising European Industry

National Initiatives on Digitising Industry

Analysis of National Initiatives on Digitising Industry

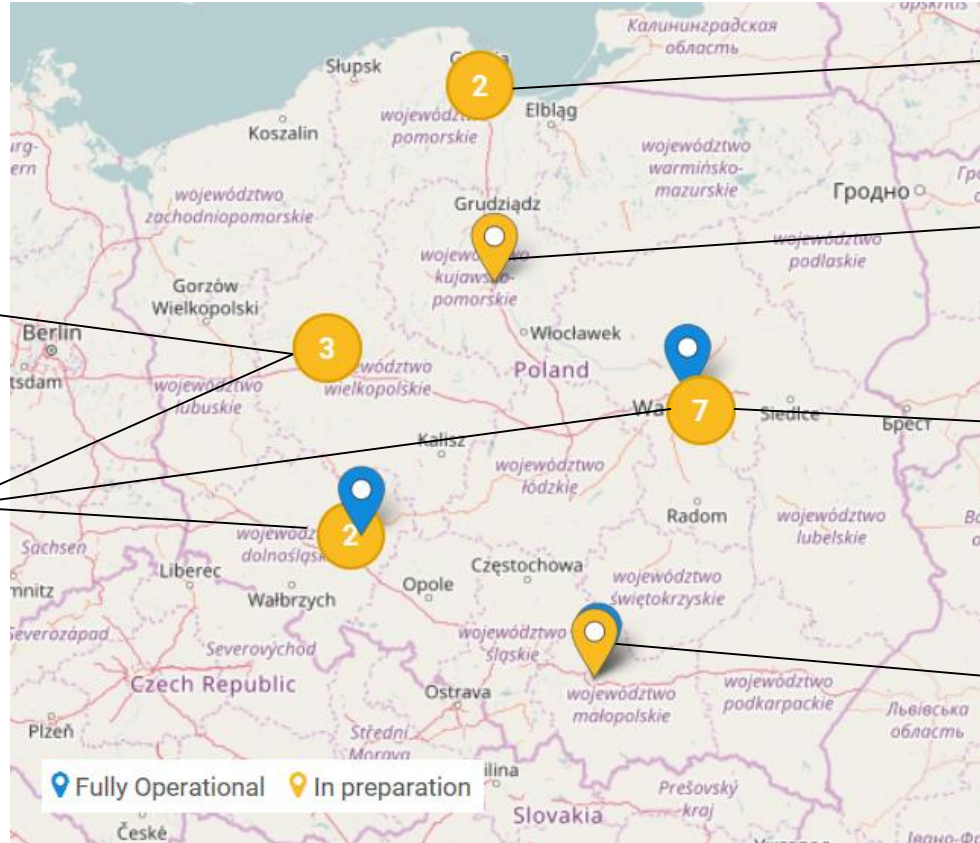

<https://ec.europa.eu/futurium/en/implementing-digitising-european-industry-actions/national-initiatives-digitising-industry>

"Ensure that every business in Europe, whatever its sector of activity, wherever located and whatever its size, can take full advantage of digital innovations and competences"

Digital Innovation Hubs

3 operational & 16 future DIH

generalist

IoT

Electronics
Photonics
+ ...

Cybersecurity

HPC

Automation -
robotics

*Of which, 8 being
coached by Smart
Factories*

Digital Industrial Platforms: European priorities

Digital
Manufacturing
platforms for
connected smart
factories

Agricultural digital
integration
platforms

Digital service
platforms for rural
economies

Smart hospital of
the future

Smart and healthy
living at home

Smart construction

Interoperable
smart homes and
grids

Big Data solutions
for energy

5G for connected
& automated
driving

Cross-cutting issues, IoT, Data, Security...

Artificial Intelligence: the Next Digital Game Changer

Make AI accessible
"on-demand" &
Train trainers

Build Europe's technological
and industrial capacity in AI

I4MS

Liability and
access to data

Build skills and pro-actively
address jobs

A high-visibility event with 600+ participants, to network and share experience

co-located within "Global Industrie" Trade Fair attracting >10000 visitors per day

Stakeholder Forum
